MARCH PROGRAM

Solar PV Checklists

*Coordinator: Midway City
(See Page 4 for more info)*

June 17, 2015

Time: 12:00P.M.

Orem City Council Chambers
56 North State Street
Orem, UT 84057

July's Meeting:

Topic to be determined

Coordinator: Midway City

July 15, 2015

Time: 12:00P.M.

MESSAGE FROM THE BOARD

Greg Anderson

3-Year Board Member

We would like to thank all those who attended our Annual ICC Beehive Chapter Spring Training event held at the Utah Valley Convention Center. The classes were held on April 20th through the 22nd and, although many of you were very busy with your work schedules, we were glad to see you in attendance. We have received positive feedback on the class schedules, topics and venue. The majority of those who responded to Chris Kimball's...

BOARD ARTICLE (Continued)

...“Conference Survey” have indicated that April is the best time of year to hold the Training. The Utah Convention Center seems to be the favored venue. We really appreciate those of you who took the time to fill out the survey. All of your comments have been taken into consideration for planning next year’s Spring Conference.

It’s great to see the growth that the ICC Beehive Chapter has been experiencing. We feel that participation in the Chapter is a great way to share and compare the different ideas of those in the industry. “Conformity Corner” is one of my personal favorites! If you have ideas for topics to

discuss, please forward your information to Kent Partridge at kpartridge@Emcity.org. We appreciate your continued participation at the ICC Beehive Chapter monthly meetings and other events. See you at the next monthly meeting on June 17th at the Orem City Council Chambers!

Sincerely,

CONFORMITY CORNER by Kent Partridge, 1st Vice President

Duct Connections

- What are we requiring for joints and connections in ductwork? The code requires the duct connections to flanges of air distribution system equipment to be sealed and mechanically secured. What do you look for?

Laundry Outlets

- What is allowed for the laundry room outlet? Should the washing machine outlet be GFCI protected?

We will discuss both of these topics at our next monthly meeting, June 17, 2015.

26 Parents' Day	27	28	29	30	31	1

SOLAR PV CHECKLISTS (June Training)

Doug Smith, M.C.P., C.B.O.

This month's Beehive Chapter meeting will include a presentation by Doug Smith regarding his revised solar PV checklists which were sent out to many building departments this past week. We are all continuing to see a huge increase in solar PV installations which translates to more PV plan reviews and inspections for us all. Doug will explain some of the ways his checklists can be used, including for plan review or inspection purposes. He will also have his PV presentation handy for reference to help address any questions any of you might have. This meeting will be an open forum for discussion and we encourage all of you to come and participate.

FREE "2015 IECC" TRAINING!

If any of you are able, Brent Ursenbach will be providing a **FREE** training on the 2015 IECC at the Santa Clara City Banquet Hall on June 8, 2015. This class has been funded by the State and inspectors and design professionals alike are able to receive CEU's and AIA credits.

The following is more information regarding the event if any of you are interested...

Date: June 8, 2015

Instructor: Brent Ursenbach

Time: 8AM – 4PM

Place: Santa Clara City Hall, Banquet Room
2603 Santa Clara Drive

Food: Breaks are provided, lunch on your own.

CEU's: 0.8 for a full day of attendance.

RSVP: Please RSVP to Melodie Hayes or Corey Bundy at (435) 656-4690 (x-215) or email mhayes@sccity.org by June 4th in order to ensure proper number of seats, certificates, and food are available.

Sincerely,

The Beehive Chapter Board

INSPECTOR PROFILE

"Cowboy Brad" Hardman is fairly new to the building inspection industry. Brad comes from 35 years in industrial maintenance, the last 28 years at Nestle as an Electrical Maintenance Team Leader. While at Nestle, Brad attained his Utah State Journeyman Electrical license. Brad was looking for his second career when he found inspecting. Brad achieved his Combination Building Inspector License in less than a year from his retirement from Nestle. Brad has been employed as a building inspector for Park City for almost a year and continues to excel in the industry.

Brad has a reputation in Park City for his thorough inspections, however, Brad's reputation is over-shadowed by the reputation of his inspection partner Zip. Zip is an Australian healer mix that follows Brad closer than his shadow (Brad casts a long shadow).

Brad lives in Mapleton with his wife Nancy. He has three children Angela, John and Jake and a grandson William. Brad and Nancy enjoy their home in Mapleton with their horses, chickens and Zip.

When Brad is not inspecting he can be found along a mountain trail atop his horse Flash with Zip running along beside. Or you will find him traveling a long dusty trail behind his team of draft horses Doc and Wyatt driving them from his wagon again with Zip nearby. Brad and his team have also been spotted in several parades across the state. In the winter months Brad's free time is spent in his shop building a training cart, improving his wagon or turning on his lathe. If you see his work you will agree that he is an excellent craftsman!

Brad has been an excellent addition to the Park City Building Department and the Beehive Chapter is glad to have Brad as one of our newest members.
