

Certified Building Inspector

Epic Engineering is looking for an experienced building inspector to join our team immediately.

Requirement should include:

- A current Combination Inspector License for the State of Utah.
- ICC Certifications for Commercial and Residential Inspector.
- Strong communication skills to work with team members and clients to coordinate and oversee inspection work.
- Valid Driver's license

This position requires strong communication skills, and the ability to understand problems and to be able to apply them to the I-codes. Inspector will be responsible for conducting inspections for multiple state and local projects throughout the state of Utah. The inspections are to ensure compliance with project specific plans/ specifications and code. Inspector is to issue report(s) based on the inspection(s) conducted for the project using company supplied computer, printing equipment, and phone. The inspector will be required to work with professionals to help meet project goals and assist in overseeing the client's best interest. The inspector will be required to meet inspection schedules, be flexible with changes in schedules, be reliable, conduct themselves in a professional manner, adhere to all company policies and procedures, communicate with staff regarding project issues, maintain company vehicle, and be mindful to the company's best interest. Inspectors will also be required to do all other jobs as assigned.

Experience: At least 2+ years inspection experience, listed as an approved Building Inspector for the State of Utah DFCM Projects is preferred.

Compensation depends on qualifications.

How to apply: Email resume to cswenson@epiceng.net or fax resume to the attention of Mike Jensen at (435)654-6622. Please specify position when submitting your resume.
